

I have three (3) XM Satellite Radios and I consider them very valuable as they allow me to greatly benefit from listening to all the traffic and weather channels where ever I may be. While on the road for vacations and business, it is particularly valuable to be able to know what weather and traffic to expect! Additionally, my satellite radios provide me with a superb variety and quality of broadcasts that are not available elsewhere. I proudly pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve and enjoy. The Government surely DOES NOT NEED the authority to eliminate or modify this most valuable service for the citizens of the USA! Stay out of this business! Go find the Terrorists!
